

Assessment Scores for Bocce

Each athlete should play three modified games, called a set.

The athlete should alternate from each end of the court and play the following allotted balls. The athlete should not surpass the foul line when he/she plays the allotted balls:

- a. The referee will place the pallina at the marked spot (center) of the 9.15-meter (30-foot) line, and the player should play eight balls. The referee will measure the closest three balls and record their distance in centimeters.
- b. The referee will then place the pallina at a marked spot in the center of the court at the 12.20-meter (40-foot) mark, and the player should play eight balls. The referee will measure the closest three balls and record their distance in centimeters.
- c. The referee will then place the pallina at the marked spot (center) of the 15.24-meter (50-foot) line, and the player should play eight balls. The referee will measure the closest three balls and record their distance in centimeters.

During the divisioning process, if the pallina is moved from its spot at 9.15-meters (30ft), 12.20-meters (40ft) or 15.24-meters (50ft), it is to be replaced on the spot before the next ball is rolled and before any measurements are taken.

Measurements will be taken from the center side of the bocce ball to the center side of the pallina, for a total of nine measurements, the sum of which becomes the athlete's divisioning score.

For Doubles and Teams, the sum of the athletes divisioning scores shall be the Doubles and Team's divisioning score.
