**Healthy Athletes**

Healthy Athletes is a Special Olympics program that provides free health screenings in a fun, welcoming environment. At the 2018 Summer Games volunteers clinicians are offering dental, fitness, hearing and health screenings. At these games, the Founder of Special Olympics, Eunice Kennedy Shriver, said, “Today’s Special Olympics Games have not been organized as a spectacle. They are not being conducted just for fun. The Special Olympics prove a very fundamental fact. The first time-normalized children and adults with intellectual disabilities became involved in sports, that, through sports they can secure confidence that all children will have in the future.”

We salute and thank all those who believed and continue to believe in the mission of inclusion and opportunity for those with intellectual disabilities. Thank you for joining us in celebrating 50 Years of Special Olympics.
